

Solène Bord

Creativity and inspiration can be found everywhere, anywhere. Never stop looking!

I am a curious and creative graphic designer, developer, and web designer. I love colorful and fun designs inspired by cartoons. As a french exchange student, traveling and exploring different cultures have definitely changed my work and the way I approach my ideas. I revel in versatility and I believe the most interesting part of a project is trying to combine diverse tools and techniques to achieve unique results. But in the end, I think the most important to improve is to keep an open mind and never stop learning!
